Contract & Full-time | Remote or On-site | US/EU timezone overlap

Professional Summary

Senior Angular/TypeScript engineer with 9+ years building enterprise web applications for United Airlines, JPMorgan, and WeightWatchers. Specialized in enterprise authentication (OAuth/OIDC), UI performance optimization, and shared component architecture. Accelerates delivery through AI-augmented development (Claude Code, Cursor, Copilot) while maintaining architectural judgment AI tools lack.

Skills

Frontend: Angular, TypeScript, RxJS, React, Next.js, HTML5, CSS/Sass, Tailwind, Angular Material/CDK, NgRx

Backend: Node.js, Express, NestJS, REST APIs, PostgreSQL, MongoDB, Prisma, Sequelize

Auth & Infra: OAuth/OIDC, JWT, Git, CI/CD, Vercel/Netlify, Agile (Scrum/Kanban), Datadog, Dynatrace

Performance: OnPush, lazy loading, virtual scroll, caching, memoization, trackBy, render optimization

AI & LLM: Claude Code, Cursor, GitHub Copilot, Anthropic API, OpenAI API, Prompt Engineering

Work Experience

Senior Angular Developer | [Taller Technologies](#) > [United Airlines](#) | Apr 2023 - Present

Pilot operations platform (Schedule/Dashboard/Trip Trade). Team of 7-9 FE engineers. Remote.

- Architected shared Angular component library across 3 platform modules for 7-9 engineers, eliminating duplicated UI code.
- Delivered Trip Trade UI with 28 filter criteria types and strict business rules by pilot type (Lineholder/RSV).
- Implemented full OAuth/OIDC for Oracle Access Manager: auth service, guards, interceptor, silent renew. Resolved non-standard OAM behavior, unblocking deployment.
- Improved UI responsiveness for 7+ page datasets using OnPush, lazy loading, caching, and virtual scroll.
- Reduced developer onboarding from ~7 to ~5 days via auto-published component docs, critical during ~75% team rotation.

Angular, TypeScript, RxJS, Angular CDK/Material, OAuth/OIDC, Datadog, Dynatrace

Frontend / Full Stack Engineer | [Freelance](#) | 2024 - 2025

- C Gestiona: React + Vite marketing site with Markdown blog, Decap CMS, Netlify Functions.
- Clave de tu Ser: Next.js + Prisma + NextAuth platform; reservation CRUD admin; transactional emails (Resend).

Full Stack Developer | [Oktana](#) > [WeightWatchers](#) | Jun 2021 - Mar 2023

CRM for call center agents. Lima, Peru.

- Implemented end-to-end CRM features across Angular frontend and Node/Express services, improving agent workflows.
- Resolved intermittent subscription bug via RxJS retry strategy, reducing incidence to near-zero.

Angular, Node.js, Express, TypeScript, RxJS, Sequelize, PostgreSQL, MongoDB

Front End Developer, Pod Lead | [Softvision](#) | Aug 2019 - Aug 2020

- Led FE pod, mentored 3 juniors. Shipped MVP state management with RxJS, introduced NgRx for KPI matrix.

Web UI Developer | [Globant](#) > [JPMorgan](#) | May 2018 - Aug 2019

- Migrated financial calculator UIs (ActionScript to Angular) with pixel-accurate parity. >85% test coverage.

Projects

AI Math Learning Platform (Angular, Anthropic API, OpenAI API) - LLM-integrated adaptive math exercises with feature-flagged A/B study design, production-grade error handling and rate limiting. github.com/diegoremi/tesis_ai_math_app

Education & Languages

B.E. Computer Systems Engineering - Universidad Privada del Norte (UPN), Peru, 2025 | Comp. & Informatics - CIBERTEC, Peru, 2016

Spanish (Native) | English (Advanced) | Portuguese (Professional)
